

21th March 2022

The Registration Council for Clinical Physiologists (RCCP) registration renewal 2022

Thank you for maintaining your registration with the RCCP. The process to renew your registration will open on **28th March 2022**. We will write to you with instructions regarding what you will need to do to continue your registration.

The registration fee for 2022 is **£47.50**, representing a reduction from last years fee of £52.50. This is possible in part, due to Increased organisational cost-effectiveness as a result of RCCP becoming a wholly owned subsidiary of the Academy for Healthcare Science (AHCS) (June 2021). A single body has removed duplication of effort in the setting of standards, keeping the registers and in Fitness to Practice matters. The larger body is also better able to benefit from economies of scale, cost savings which can reduce upward pressure on the level of registration fees. It is also recognised that many registrants will be facing cost of living increases in the coming months.

RCCP currently registers 5500 Clinical Physiologists on a voluntary basis in the UK. Our key focus is patient safety and RCCP continues to work with professional bodies, higher education institutions, the public and registrants to broaden our scope and maintain high standards.

RCCP is always looking for ways to improve and develop and we welcome your thoughts and feedback.

Please do not hesitate to contact us if you have any queries or concerns.

Yours Sincerely,

A handwritten signature in black ink that reads 'Jude Savage'.

Jude Savage
Deputy Registrar
